ABOUT

Informatics Engineering graduate from PUCP, Lima, Peru. I build full-stack web applications with React, Next.js, TypeScript, and Tailwind CSS — focused on performance, clean structure, and real-world features like authentication, task workflows, and team collaboration. Currently looking to grow as a frontend developer and contribute to production-grade products.

SKILLS

CORE STACK

React Next.js TypeScript JavaScript
HTML5 CSS3

STYLING & UI

Tailwind CSS Figma Responsive Design
Framer Motion

QUALITY & PERFORMANCE

Jest React Testing Library
Accessibility (a11y)

TOOLS & WORKFLOW

Git · GitHub REST APIs Vercel
Agile · Scrum

PROJECTS

Personal Portfolio

➤ Live: diegotuesta.site

[Next.js](#) · [TypeScript](#) · [Tailwind CSS](#) · [Framer Motion](#)

- Built a fully responsive portfolio site with optimized image loading and smooth page transitions
- Implemented Next.js Image component with correct sizing and priority flags
- Deployed on Vercel with automatic preview deployments on every pull request

To Do List App

[React](#) · [TypeScript](#) · [Node.js](#) · [Tailwind CSS](#)

- Implemented full CRUD operations for task management (create, update, delete, retrieve)
- Designed a task workflow system with statuses: Pending, In Progress, Completed
- Built team collaboration features, allowing multiple users to be assigned to tasks
- Integrated secure authentication system for user access and session management

EDUCATION

Bachelor of Informatics Engineering

Pontifical University of Peru · Lima, Peru

2016 - 2021
